

PRODUCT CHANGE NOTIFICATION

Ai PCN No: 122

Date Issued: May 13, 2016
 Notice Type: Product Revision Change
 Product Type: AL143

Change Notification Summary

In an effort to improve our products, Advanced illumination (Ai) will update the LEDs used in the AL143 design. This change will result in a brighter, more uniform light at the same price*. Customers may still buy the current revision of this model until August 5th of 2016. After that time, orders for these products will be converted to their respective AL143 Revision A models.

This LED change will result in additional wavelengths being available: 365nm, 375nm, 385nm, 405nm, 455nm, 505nm, 660nm, 730nm, and 940nm. **Additionally the white LED color temperature will be changing from 6100K to 5500K.**

*Pricing for IR wavelengths (730nm, 850nm & 940nm) will be reduced to the same price as visible wavelengths, while UV wavelengths (365nm, 375nm, 385nm & 395nm) will increase from \$605 to \$750.

Orders for customized (dash numbers) versions of AL143 will be honored until December 1st of 2016. Ai will be actively working with customers for those products to simplify the transition.

Please contact your Ai Sales Representative if you have any questions.
